

Stoneybatter Greening Strategy

MANOR STREET TREE PLANTING

JUNE 2025

Dublin City Council Parks, Biodiversity & Landscape Services

Dear Manor Street Residents,

We are reaching out to provide an update on the proposed tree planting for Manor Street as part of the Stoneybatter Greening Strategy.

Please see drawing overleaf outlining the proposals for Manor Street adjacent to the junction.

These drawings have been developed by The Paul Hogarth Company Landscape Architects in coordination with Parks, Landscape & Biodiversity Services.

The trees have been positioned to minimize disruption to car parking, complement the existing outdoor seating, and frame the entrance to the street.

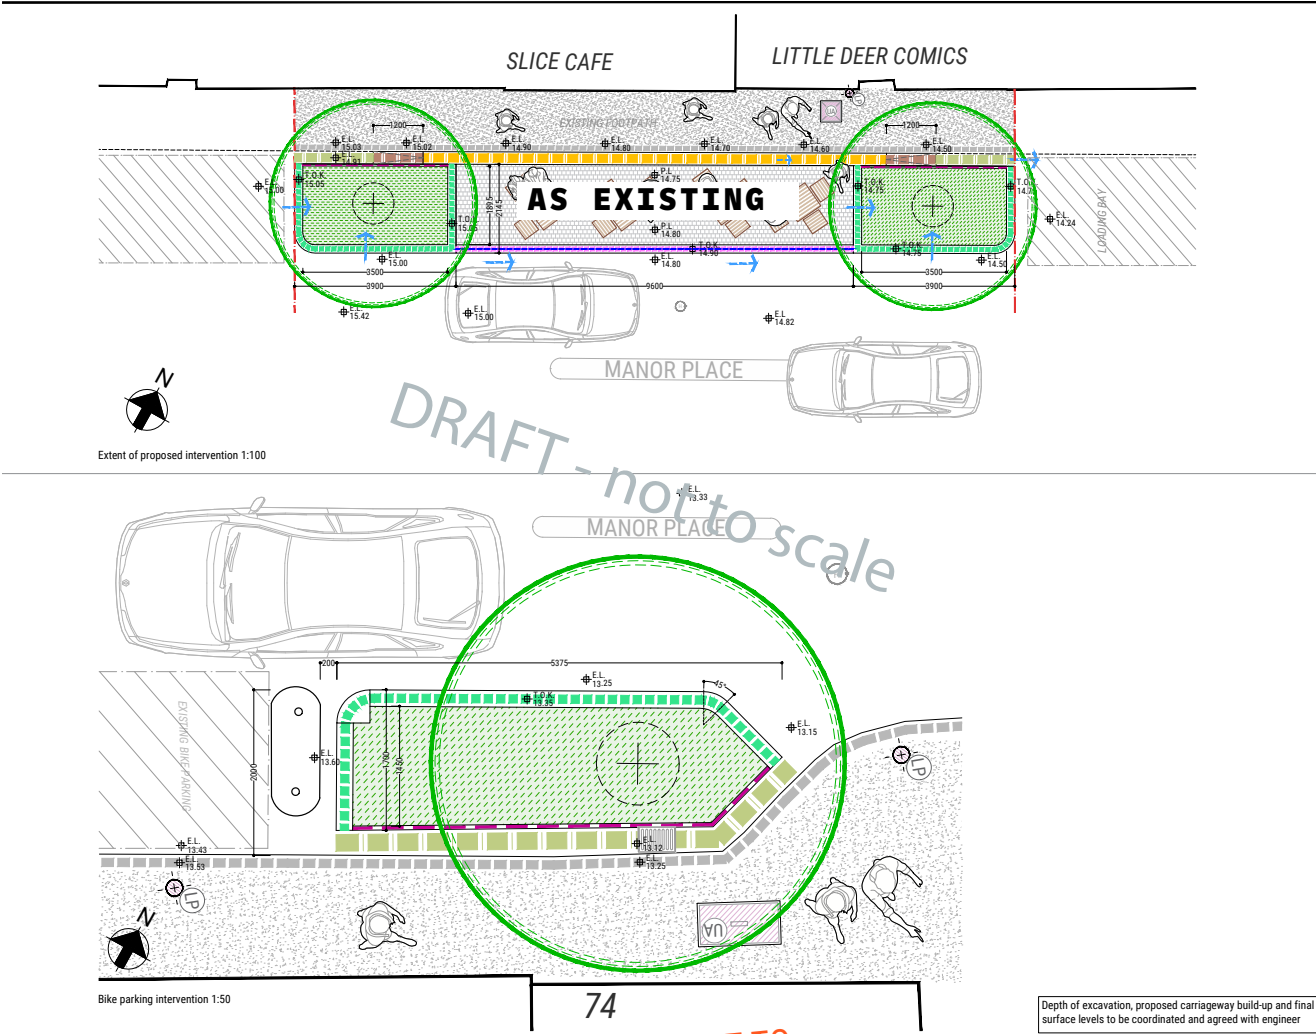

Specification notes:

- Trees will be clear stem.
- Tree pits will be constructed with sufficient root zones to ensure healthy growth, preventing roots from infringing on footpaths or building edges.
- Root barriers are included for additional protection.

Please refer to the tree planting on adjacent streets in Stoneybatter for example projects.

Please submit questions or feedback to: greening@dublincity.ie

or Call Parks on 01 222 5278
